

Measuring for Custom Type #9

**This modification has some limitations.
If there are too many stairs or the landing is
too long, we may need to splice the top rail.**

**If you are interested in modifying your railing
like Custom Rail #9
take measurements A through G and any overhang,
count your stairs, then give us a call.**

**If you have a different amount of stairs than our drawing measure
each rise and run to give to us.**

*** If you can e-mail a picture - that is very helpful ***
