

If you have a long stair with an uneven amount of steps (don't count landing as a step) you have two choices:

Custom 5A

EZ Rail with base plate with center post on one of the two middle steps - whichever one you choose (therefore not exactly centered)
No extra charges since all the posts are normal size

Custom 5B

EZ Rail with base plate with center post shifted to be exactly in the center of rail.
Extra charges: \$20.00 for longer post.

Extra long railings can be EZ Rail or EZ Rail with base plate
