

Measuring for Custom 2A, 2B or 2C

If you are interested in Custom Rail 2A or 2B take your measurements A through G and any overhang, count the number of stairs, then give us a call

If you have a different amount of stairs than our drawing, measure each rise and run to give to us.

Either of the customizations shown here can also be modifications to an EZ Rail or EZ Rail with base plate

If you are interested in Custom Rail 2C take your measurements A through G and any overhang, count the number of stairs, then give us a call.

If you have a different amount of stairs than our drawing, measure each rise and run to give to us.

* If you can e-mail a picture - that is very helpful *
