

Custom 8

EZ Rail with base plate modified to set
back on the landing farther than normal

Extra charge: \$20.00 for bend

When you want your top post to be set back on the
landing more than 4" you will need to level off at the top

Drawing shows an EZ Rail with base plate, but we can
also modify an in ground or core drilled rail

* If you can e-mail a picture - that is very helpful *
